CHIRAG

Hello! My name is Chirag, and I am a student of Bachelor of Computer Applications (BCA) in Jai Prakash Mukand Lal Innovative Technology and Engineering College. I am passionate about creating and optimizing user-friendly and impactful web applications. I have experience in front-end development, creating responsive and visually appealing designs using HTML, CSS, JavaScript and Bootstrap. In the backend, I have mainly worked with MySQL and C language, which makes data management and applications more efficient. I am also learning Python and React Native, so that I can further enhance my skills in developing web and mobile applications. My aim is to expand my skills and explore new technologies, so that I can turn innovative ideas into reality.
